GOLD SPONSOR
Welcome to the 2016 FGDP(UK) Scotland study day

As always it is a great pleasure for me to welcome you all. Today approximately 400 dentists, hygienists, team members, students and industry specialists from across the UK have converged on Glasgow Science Centre. This year our subject matter ranges from an in-depth look at tooth wear and the BEWE examination to a thought-provoking presentation on the treatment of occlusion. It is an honour to host a return visit from Van Haywood from the United States and to welcome our colleagues David Bartlett, Helen Kaney and Jayne Clifford from closer to home.

2016 has been a significant year for like-minded dental organisations in the west of Scotland. The launch of CPD Scotland has provided a hub for dentists to find not-for-profit events run by the dental team. Greater cooperation has allowed us to plan ahead much more effectively. In May CPD Scotland will hold the first Core CPD Day with any profits helping to fund further dental education. In June we will witness the Big Smile Big Band world record attempt.

Today, we also celebrate the achievements of our younger counterparts. This year has been another successful one for our MJDF tuition group and we are delighted to be joined by so many of our candidates. We will also crown the winner of the west of Scotland VT best case presentation and play host to close to 100 BDS5 students from the University of Glasgow.

So, please sit back, relax and enjoy a day of world-class lectures, superb catering and an excellent trade show in the company of colleagues and fellow professionals from across dentistry.

Conor O’Malley
Director, west division of FGDP(UK) Scotland

Event information

The exhibition – Please visit our 30 sponsors in the Atrium during registration, tea and coffee breaks.

Lunch – A three-course, sit down lunch will be served for delegates in the Clyde Suite. BDS5 students will pick up their lunch vouchers from registration.

Evening drinks reception – All delegates and sponsors are invited to the drinks reception sponsored by Martin Aitken & Co and Miller Samuel from 5.15 to 7.30 in the Science Centre Cafe.

Feedback forms and CPD certificates – All of our feedback and CPD certificates are online this year. You will be emailed a link to the feedback form and will be able to collect your CPD certificate on completion of the form.

GP214 forms – GP214 claim forms can be downloaded on completion of your feedback.

Cloak room – Delegates can leave their jackets and bags in the cloak room area during the event. This will be relocated to near the Science Centre Cafe during the drinks reception. A member of Science Centre staff will be in attendance all day but it is advisable to keep more valuable items with you.

Free parking – Before you leave please bring your parking ticket to a member of staff or the event team and we will validate it so that you do not have to pay anything.

PRIZE DRAW

Pick up raffle tickets and enter our prize draw! To be in with a chance of winning prizes in our prize draw please collect raffle tickets from any of today’s stands. All of you have to do is remember to write your name on the back of each one and take the tickets to the FGDP(UK) stand by 4pm.

Make the most of the exhibition Many of our sponsors also have special offers and promotions today.

PICK UP RAFFLE TICKETS AND ENTER OUR PRIZE DRAW!

### John Cowan:

John is a partner in our commercial property team and has over 30 years’ experience in practice.

He specialises in all aspects of commercial work including sales/acquisitions, developments and leases and has ample experience of dental legal work. John can assist with the legal requirements of dental practices and dental practitioners including dental partnership agreements, incorporations and the preparation of associate agreements.

He has significant experience in drafting sale and purchase agreements for practice acquisition or disposal. Should you require any employment advice can be provided by our specialist employment team if required.
David Bartlett
David Bartlett is Head of Prosthodontics and Graduate training at Kings College London Dental Institute. David has published over 100 research publications, written 3 books, numerous chapters and is internationally known for his research on tooth wear and in particular acid erosion. David is an internationally respected specialist in Prosthodontics running the largest training programmes in Europe.

Van Haywood
Van Haywood is a Professor in the Department of Oral Rehabilitation, Dental College of Georgia at Augusta University in Augusta, Georgia. In 1989, he co-authored the first publication in the world on Nightguard vital bleaching (at-home bleaching) with Dr. Harald Heymann, and in 1997 co-authored the first article on extended treatment (six-months) of tetracycline-stained teeth using this technique. He has lectured in over 30 countries and 30 states.

Helen Kaney
Helen Kaney is dually qualified as both a dentist and a solicitor and completed an MBA in 2013. She qualified in dentistry from Glasgow University and worked for several years in general dental practice before training to be a solicitor. Helen works for Dental Protection as a full-time Senior Dentolegal Adviser based in the Edinburgh office where she is the lead for Scottish Dental Services.

Jayne Clifford
Director, Martin Aitken & Co
Developing the practice, running the business, minimising taxes, strategic planning, buying and selling, as well as her core discipline of auditing, accounting and management reporting, Jayne is valued by her clients because she advises in the round. Knowing what the impact of a commercial decision made today will have on the business in the next year and beyond is at the centre of what she does, and it’s why she is valued by her clients and respected by her fellow professionals.

Gavin Curr
Assistant Manager, Martin Aitken & Co
Gavin advises a wide range of clients, from start-ups to established SME companies and helps them to account, comply, plan, and working with Jayne Clifford, assists in the development of business plans and growth strategies to improve business performance and practice profitability. Gavin advises both dental practice owners and dental associates on financial management and accounting, business and personal taxation, VAT, bookkeeping, and business planning.

Main Programme Aims and outcomes
FGDP(UK) Scotland will provide a whole day seminar for the dental team focusing on Occlusion and the essential Basic Erosive Wear Examination.

1. Delegates will be able to review the appearance, prevalence and consequences of erosive tooth wear and use a pragmatic approach to guide their restorative principles and treatment choices.

2. Delegates will be able to identify signs of occlusal disease on teeth and restorations, and determine appropriate treatment possibilities.

3. Delegates will be able to conduct a systematic occlusal examination of a patient to determine the health or dysfunction of their masticatory system.

Student Programme: Tooth Wear
Tooth wear is part of your practising lives. The most important guidance in the early part of careers is to recognise and give advice on prevention and options for management. Chaining the vertical dimension and restoring a dentition with crowns or composite soon after qualification is very challenging.

Your lecture will overview prevention and use examples to show the options for care.

From University to Associate to Practice Owners...
Our journey in dentistry (so far)
Jayne Clifford, Martin Aitken & Co will conduct a live interview with Iain Maudsley and Brian McMillan from St Leonards Dental Practice on their career journey to date.

Preparing for life as a new Dental Associate
Gavin Curr, Martin Aitken & Co will present finance, tax and accounting tips and recommendations to get you off on the right foot.

So you are just about to qualify...
What do you need to know about avoiding problems?
Helen Kaney provides an overview of the issues that they need to be aware of in relation to the practise of dentistry, its governance and regulations and how to avoid problems for themselves.
Friday 1 December 2017

In 2017 the FGDP(UK) will be 25 years old and the organisation will round off a year of celebrations with the Faculty’s biggest one day event. Anyone attending this year’s event will receive priority booking rates. We hope you can join us for our silver study day anniversary in what will be a momentous year for the organisation.

In 2017 our speakers will include two legends of the dental world, Trevor Burke and Terry Donovan. They will present in-depth content featuring new information on core dental subjects including crowns, fillings and dentine bonding agents. Their presentations will also provide opposing views on the future of amalgam.

Full details and additional speakers will be announced in 2017.

Book from early 2017

If you would like to reserve your place at our special rate prior to that you can let us know following today’s event.

See you in 2017!

VDP CASE PRESENTATION PRIZE

Join us in celebrating the winner of the west of Scotland VT overall case presentation. Seven of Scotland’s finest young dentists will vie for best case presentation prize today. Their case presentations have been judged by Faculty members based on a rigorous set of criteria. Our overall winner will receive a prize donated in recognition of their hard work and research.

FGDP(UK) Scotland is proud to be associated with the VDP programme.

Boutique Whitening is one of the fastest growing whitening systems in the UK. Manufactured in America, but born in Yorkshire, you can be rest assured that Boutique Whitening has the quality you want for your patients. Whilst offering our premium quality gel, manufactured by one of the biggest and best manufacturers in the world, we are also setting a new standard in presentation and packaging. Our business model is very different to other systems, as we have not inflated the cost of one kit to do a deal on several. We simply give you our best and only price from day one. Therefore, buying one kit or 100 kits, you know you are always getting a great price and you are not forced into holding unwanted stock.

With over 20 years' experience, DPAS is the most cost-effective major dental plan provider, supporting practice teams to successfully introduce practice-branded dental plans into their practice. Every plan is backed by a comprehensive support service, specifically tailored to your practice needs, including bespoke plan marketing, effective plan patient recruitment campaigns, as well as the provision of an online patient registration and plan management system. We also provide a variety of in-practice team training. So if you're looking to switch from your current plan provider or considering introducing a private dental plan into your practice, we would love to hear from you!

Christie + Co have been valuing, advising and selling businesses for 80 years. Across 16 UK offices we offer a national perspective with local insight. With over £125,000,000 worth of practices valued or sold in 2014, we offer a real understanding of the dental market. Like you, we are regulated and like you we are trusted. When you work with us, you are assigned a specialist from our dental team from day one, local to you, who sees the project from start to finish. Simplifying complex procedures and communicating regularly, including outside practice hours when it's convenient to you.

Clyde Munro Dental Group accepts referrals for a range of treatments at our referral centres in Glasgow and Edinburgh, including sedation, implants, periodontal cases, orthodontics, digital imaging and oral surgery. Our ever-expanding network of practices is committed to providing a forward-thinking, modern approach to dentistry and our staff deliver this with a warm welcome ensuring patients are comfortable and at ease. At Clyde Munro, we believe in the importance of building relationships with our patients and referring dentists.

For further information on our referral service or to refer a patient, please visit our website www.i-refer.co.uk

GSK researches and develops a broad range of innovative products in three primary areas of Pharmaceuticals, Vaccines and Consumer Healthcare. GSK Consumer Healthcare combines our strong pharmaceutical capabilities in regulatory, medical, drug manufacturing, and healthcare professional access - doctors, dentists, pharmacists - with best in class fast moving consumer goods capabilities - consumer insight, speed to market, brand focus and the ability to effectively partner with retailers. We call this combination of pharmaceutical and fast moving consumer goods capabilities ‘Fast Moving Consumer Healthcare’, and believe we are uniquely placed to become the first and best Fast Moving Consumer Healthcare Company driven by science and values.

For over 120 years Kerr has been developing and manufacturing a wide range of high quality dental products for your practice, which is our inspiration. Kerr is committed to advancing aesthetic dentistry through education and sustainable solutions in consultation with wet-gloved clinicians. This partnership approach is the inspiration behind decades of standard-setting products that make up Kerr’s rich portfolio. Visit the Kerr stand for a demonstration of SonicFill, the fast and easy composite bulk fill system for posterior restorations that combines the advantages of a flowable composite with a universal composite. SonicFill reduces the time needed for placing, packing and sculpting restorations by an incredible 30%.

Leca Dental Laboratory is a full service laboratory providing NHS / Private restorations and appliances. The laboratory was originally opened in 2002 by Thomas and Martin Leca. In 2014 Tom’s other son Nick joined the business to support the continuous business growth. Since opening the business has enjoyed year on year growth. Originally only servicing prosthetics , we have dedicated the last 14 years to undertaking a significant business transformation and offering the full service capability. We have now fully embraced digital technology and offer the full Lab to chairside experience. Our primary objective is to provide our customers with a service unrivalled within our industry. Our commitment to quality delivery and cost are paramount to our position as one of the leading dental appliance service providers.

We’re mydentist: Europe’s largest dental company. Our 670 -plus network of practices is committed to providing the latest treatments, and helping the nation improve their oral health. Over ten million people in the UK trust us with their dental care. The best dental care starts with the best people. That’s why we make it our mission to attract and develop talent. mydentist is home to over 2000 dental professionals, each of whom enjoys comprehensive support from our team of Clinical Directors. You’ll find a wealth of opportunities to further your professional skills, including the option to specialise in areas such as orthodontics and implants. Our Academy, the only one of its kind in the country, will support your development every step of the way.

“Our philosophy is a simple one. We do our best - our best to help you, your practice and those who work with you to deliver excellent patient care. Which is why we have developed a choice of options and solutions to help support all areas of your business. Let our experts help you with whatever you need, they offer advice on everything from decontamination to digital imaging. We also provide guidance on digitising your practice as well as finding ways to help you make savings and increase your profitability. For those looking to step onto a digital platform, we also help dentists and laboratories access all elements of the digital workflow, linking every area of your practice and laboratory seamlessly.”
Optident are known in the dental industry for providing high quality, innovative and clinically supported products with a dedicated education programme to reinforce its belief. Optident work closely with the world’s leading clinicians and key opinion leaders paving the way for the latest developments and advancements in technology and science. Leaders in their field, Optident work with some of the most established manufacturers in the world and also develop their own products for international distribution. Fuelled by their creative marketing and approach to sales, their brand sits in a unique position within the dental market.

Visitors to Oral-B’s stand will be able to learn about the company’s latest innovative Genius. The first connected toothbrush on the market. Dental professionals will now be able to evaluate the product themselves before recommending it to patients. Patients will also be able to experience the product before investing in the technology with Test Drive. The mechanical benefits of Oral-B’s power toothbrushes compliment the chemical efficacy afforded by their Pro-Expert toothpaste. Gum health through effective plaque control is one of the beneficial features of Oral-B’s Pro-Expert toothpaste and the inclusion of stabilised stannous fluoride that makes the difference.

Scottish Centre for Excellence in Dentistry is one of the largest private dental centres in Europe. The aim of the centre is to provide you with a quality referral service in all aspects of dentistry, implantology, face and body rejuvenation. New referrals will be seen within two weeks and we will endeavour to see patients in acute pain on the same day. We are happy to accept referrals for all aspects of dentistry, including implants, oral and facial surgery, periodontics, orthodontics, prosthodontics, endodontics, restorative dentistry, hypnotherapy, sedation and CT scanning. We can offer advice only, carry out part of the treatment or all of the treatment; the choice is yours. We also run courses and seminars and will keep you updated with the details of the topics and dates, most of which are complimentary to referring GDPs.

Strictly Confidential has been operating for over 16 years within the Dental Profession in Scotland. We can source and supply all relevant information regarding sales, valuations and acquisitions of Dental Practices and we can also assist with recruitment. Sales - selling and relocating, we will effortlessly start the process. Valuation - Dental Equipment, Goodwill, Insurance and Legal. Purchase - acquiring a practice or practices. Recruitment - contact us to fill your temporary or permanent vacancy for either an associate (full or part time) or a locum position. All of our valuations and meetings are held out of hours and on weekends, to ensure a confidential service is provided.

TDS is now the indemnifier of choice and still the only company in Scotland offering full professional indemnity insurance and legal services to dentists. The only non-discretionary provider in Scotland. Practice Match is a dental conveyancing company. Expertly tailored discreet service with in-house legal services for the buying or selling of dental practices. The prices are extremely competitive in combination with legal services. When you analyse the costs of solicitor’s fees, valuation and agency introduction to conclude a contract it is not difficult to see why Practice Match stands alone when offering the combined services. We offer legal and dental knowledge in excess of 60 years.

Taste our latest innovations!

Innovation is our life blood. Our products make life easier, more efficient and with less cost. Systems and processes for more efficient cooperation. Helping to help improve! Our aim always is to be memorable, interesting and helpful. Not for us the “ease of the latest special offer”! Yes we sell gloves, disposables materials and everything else. But your time is too valuable to waste on that. Come and see some real innovation! Bulk Fill band new from Tokuyama, Dentiguard; nature’s must for everyone. BiominF the hottest name in toothpaste, Adin 2.7mm implants Lamina membrane and many, many more!

WESLEYAN
we are all about you

Wesleyan provides specialist financial advice and solutions, including banking and general insurance, to professional customers from the dental profession. As a mutual, we have no shareholders to consider and can focus on what’s right for our customers – not just today but for the long term. We develop long-term relationships with our customers and work with them throughout their career, from graduation to retirement and beyond. For more information visit the website at www.wesleyan.co.uk.

ZIMMER BIOMET

As an affiliate of one of the largest musculoskeletal companies in the world, Zimmer Biomet Dental offers you the kind of premium service and quality rarely found in today’s world of dentistry. The portfolios of products includes: surgical solutions, regenerative materials for both hard and soft tissue applications, versatile prosthetic components for all types of implant restorations, and end-to-end digital dentistry solutions. With approximately 319 issued patents and 161 pending patents worldwide, Zimmer Biomet Dental has published over 650 articles on surgical, restorative and regenerative products. They have operations in 25 countries around the world and sell products in more than 100 countries.

The Glasgow Dental Alumni Association (GDAA) was established in 1979 and played a major role in the fund-raising activities for the West of Scotland Postgraduate Dental Centre, as well as hosting social and academic events. For a variety of reasons the GDAA became dormant in 2004, but in 2014 was re-established under the direction of William McLean (Lead for Alumni Relations and Fund-raising) and the President, David Still. It has now developed into an active and vibrant Association, engaging with increasing numbers of BDS Glasgow graduates, fund-raising for the Dental Appeal (www.gla.ac.uk/dentalappeal) and enjoying strong support from the University of Glasgow.

The Glasgow Oral Health Improvement Student Society (GOHIISS) is a group of 3rd-5th year dental students working to make Glasgow’s smiles better. With a strong focus on prevention, we aim to get people thinking about their oral health. We have partnerships with the Everlasting Food Bank and Glasgow City Mission, at which we set up stands providing information, dental products and friendly faces to talk to, as well as running street stalls for National Smile Month and Oral Cancer Action Month.

We were formed in 1992 as the academic home for general dental practitioners (GDPs). The FGDP(UK) is based at The Royal College of Surgeons of England (RCSEng) and our aim is to improve the standard of care delivered to patients through standard setting, publications, postgraduate training and assessment, education and research. Around 95% of the dental care in the UK is provided in the primary dental care setting. The FGDP(UK) looks after the continuing professional development (CPD) and training needs of both dentists and dental care professionals (DCPs) working in this field. Membership of the FGDP(UK) is open to all dentists, dental surgeons and dental care professionals registered with the General Dental Council.

EVENTS TO LOOK OUT FOR IN 2017

CPD Scotland
Core CPD Day

Friday 5 May 2017 Wolfson Medical Building,
University Ave, Glasgow G12 8QQ

The Core CPD Day is a new event run in collaboration between CPD Scotland, the GDAA and the University of Glasgow. Its aim is to provide six hours of high quality CPD for dental practitioners across Scotland.

At the same time any money raised will be donated to the Dental Alumni Fund to help improve the provision of dental educational facilities. We have chosen our location in the heart of Glasgow’s west end to be easily accessible and provide a range of post-event social opportunities.

Our speakers bring a wealth of experience and expertise in core CPD subjects. They will provide delegates with an essential update on medical emergencies, infection control, radiography, complaints handling, safeguarding, legal issues and oral cancer.

BOOK YOUR PLACE AT WWW.CPDSCOTLAND.ORG BY FOLLOWING THE CORE CPD DAY LINKS
